SUMMARY

Software Engineer II with 2.5+ years of experience in React.js, Next.js, Node.js, and Mapbox GL JS. Proven track record of delivering real-time dashboards, geospatial visualizations, SSO authentication, and backend automation. Promoted within 1.5 years — 40% performance improvement, 30% less dev effort, 25% fewer user errors.

EXPERIENCE

Software Engineer II | MapZot.AI | United States | Remote

Apr 2025 – Present

- Implemented **SSO authentication** and WebSocket-based notification architecture for enterprise identity management and real-time updates
- Developed backend automation using **Node.js** and **Puppeteer** for scheduled data processing and business logic automation
- Integrated POS systems and **Facebook Ads Audience API** for real-time transaction sync and campaign segmentation
- Optimized geospatial visualization via Mapbox GL JS with code splitting and memoization, improving speed by **40%**
- Led Agile sprints as **team captain** — task assignment, code reviews, and mentoring junior developers

Software Engineer | MapZot.AI | United States | Remote

Oct 2023 – Mar 2025

- Built scalable admin panel and dashboard features using React.js, Next.js, Redux, and Node.js, increasing engagement by **15%**
- Integrated geospatial tilesets (Wetland, Flood, Zoning, Parcel, Traffic) via **Mapbox GL JS** for imagery and vector tile visualization
- Led UI/UX redesign with custom dark theme, reducing user errors by **25%** and dev effort by 30% via reusable Material-UI components
- Built site recommendation tools using demographic analysis, improving accuracy by **10%** and API efficiency by 20%

PROJECTS

Real-Time ChatApp | [Source Code](#)

Sep – Oct 2022

- Engineered a chat app using Node.js, Express.js, React.js, and **Socket.io** supporting 100+ simultaneous users with 99% uptime
- Implemented **room-based chat** with unique room IDs, enhancing user engagement and session management

E-Commerce Shopping Cart | [Source Code](#)

Jun – Aug 2023

- Built a full e-commerce platform using **Java, JSP, Servlet**, JDBC, and MySQL for 500+ product listings with secure authentication
- Implemented admin dashboard for real-time inventory and user account management, improving efficiency by **30%**

SKILLS

Languages: JavaScript, Java, Python, C++, C

Frontend: React.js, Next.js, Redux, Mapbox GL JS, Chart.js, Recharts, Material-UI, Styled Components, Tailwind CSS, HTML, CSS

Backend: Node.js, Express.js, Puppeteer, WebSocket, REST APIs, SSO/OAuth, J2EE

Databases & Tools: MySQL, SQL, Git, GitHub, NPM, Yarn, Chrome DevTools

EDUCATION

Master of Computer Applications (MCA)

CGPA: 7.3 / 10.0

Vellore Institute of Technology, Vellore, IN

2023

Bachelor of Computer Applications (BCA)

CGPA: 8.83 / 10.0

Arka Jain University, Jamshedpur, IN

2021

CERTIFICATIONS

Frontend Developer (React.js) | HackerRank, 2026

Advanced SQL | LinkedIn Learning, 2023

Hackathon: Solving Real Life Challenges using Java | VIT Vellore, 2022
